Norrskan

Swedish light, captured in premium jewellery

Norrskan, meaning northern lights in Swedish, is our jewellery collection inspired by the ever-changing elements of Swedish nature. For much of the year there is continuous twilight where the sun's oblique angles create a moody, shifting light. Casted on shapes and forms in nature, this light becomes unique jewellery that stands the test of time.

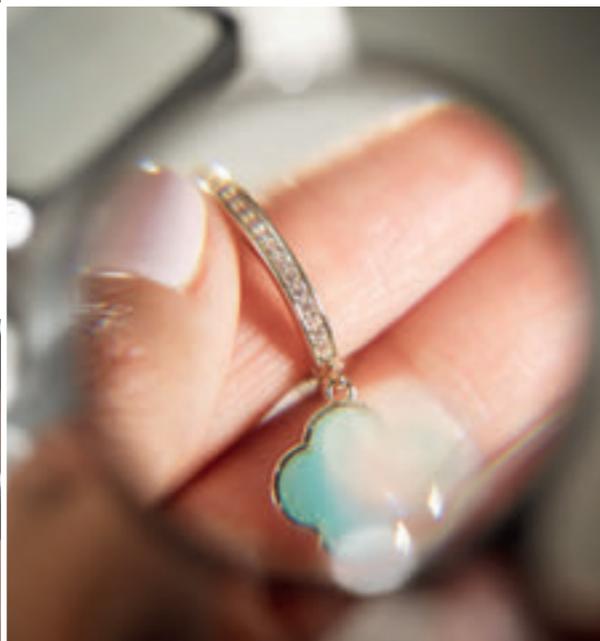

LOVING THE SWEDISH LIGHT

Sweden's ever-shifting light is our great inspiration. Embracing change as well as the power of nature, Norrskan jewellery is crafted to harness the light around you.

CAREFULLY SELECTED

Natural stones are chosen for their unique beauty and set in designs that showcase their singular nature and rare variations, ensuring that your piece will be unique and yours only.

MADE BY NATURE

Chosen for their deep connection to nature, special energy and unique qualities, natural semi-precious stones are Norrskan's crown jewels.

CARING CRAFTSMANSHIP

We take immense pride in making sure that each stone is both polished and set by hand, paying utter respect for the individual nuances of the raw material.
